Available in store from 1st March.

**London, 28 February 2008:** T-Mobile UK and Research In Motion (RIM) today announce the launch of the new BlackBerry® Pearl™ 8110 smartphone in a unique new 'Blue Slate' colour, along with some great new T-Mobile price plans to go with it.

The new Blackberry Pearl 8110 includes features such as a 2 Mega pixel camera with 5x zoom and enhanced flash, in-built GPS with BlackBerry® Maps software, and Quad Band connectivity for use around the world. It's the ultimate lifestyle tool, with all the functions of a smartphone, making it easier for busy people on the move to call, email, surf the net, take and send photographs, listen to music or send and receive videos. What's more, customers can access their address book, calendar and a range of business and leisure applications whenever its convenient to them.

Customers can now make the most of these features with T-Mobile's new price plans for instant email users. Instant email can now be added to any new Flexi plan with a BlackBerry Pearl 8110 for just £5 per month extra on an 18 or 24 month contract, giving people access to up to ten different email accounts through their phone. Customers can add both Internet Email and web'n'walk internet access for an additional £10 a month.

Richard Warmesley, Head of Internet on the Move, T-Mobile, added: "The BlackBerry Pearl phone has established itself as the mobile of choice for people who are smart about juggling work and play. With our new prices for instant email combined with the great offer for web'n'walk, T-Mobile BlackBerry customers can connect to everything that matters, for just £10 a month."

The BlackBerry Pearl 8110 is available now, and can be bought with new price plans from T-Mobile stores or online at [www.t-mobile.co.uk](http://www.t-mobile.co.uk) from the 1st of March 2008.

\* When bought with a Flex price plan

About T-Mobile

T-Mobile is one of the world's largest mobile operators with nearly 120 million customers worldwide. In the UK it is the network of choice for more than 17 million customers, making it one of the largest networks. T-Mobile has a range of innovative products and services such as Flex, a unique tariff with flexible pricing; U-Fix, a tariff that combines pay-as-you-go and a monthly contract and web'n'walk, which enables customers to surf websites on the move. T-Mobile's network coverage is among the best in the UK (over 99 per cent of the UK population) with one of the lowest dropped call rates. It offers the largest worldwide Wi-Fi network, with over 1,000 HotSpots in business-friendly locations in the UK and 21,000 worldwide, and offers the fastest HSDPA network across the UK with speeds of more than 1.8mb per second.
